Several EJx 2019 Participants' Testimony

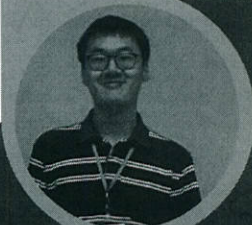

Georgia Lender
Edith Cowan University

"As a whole I feel that the program was a great success allowing participants the opportunity to network and form bonds with not only other students within their home country but also externally. I am very happy I participated in this program."

Dini Puji Rahayu
UIN Maulana Malik Ibrahim

I am very happy to be part of this program. Studying during East Java Exploration gave me the opportunity to collaborate with Australian students in finding solutions about the problems faced by people in East Java. From this activity I gained new knowledge. Each university provided the best explanation for each topic.

Jason Yong Yu
The University of Western Australia

There was many interesting topics, from traditional to modern culture. By the end of the program, students felt that their knowledge had been expanded. I believe that all future students will find many things to learn in this program.

GET USD 500 FOR EACH OF BEST 3 PARTICIPANTS TO JOIN EJx 2021
