Dear Dean of the Faculty of Agro-Industry,

I hope this letter will find you well.

This is the Faculty of Fisheries, Kagoshima University, Japan.

I am writing with regard to "2nd International Symposium on Aquaculture and Fisheries Education"

Please find the enclosed document.

Sincerely yours,

Tatsuro MATSUOKA (Dean, Faculty of Fisheries, Kagoshima University)
Chairperson, Governing Council of Postgraduate (Master) Programme on Tropical Fisheries with International Linkage

Postgraduate (Master) Programme on Tropical Fisheries with International Linkage

November 25, 2014

Dean of the Faculty of Agro-Industry (Program in Marine Product Technology)
Chiang Mai University
155 Moo 2 Mae-Hea, Muang District, Chiang Mai
Thailand

Re: Mini-symposium; 'Fisheries Education and International Linkage'

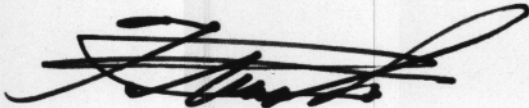

Dear Sir / Madam,

The Postgraduate (Master) Programme on Tropical Fisheries with International Linkage is an international alliance which is run by the Faculty of Fisheries and Marine Science, Sam Ratulangi University, Indonesia, the Faculty of Fisheries, Kagoshima University, Japan, Faculty of Fisheries and Aquaculture Sciences, University Malaysia Terengganu, the College of Fisheries and Ocean Sciences, University of the Philippines Visayas, and the Faculty of Fisheries, Kasetsart University, Thailand, and provides a framework where students can take subjects and obtain credits at any member universities through sharing a unified curriculum and a common rule.

As, perhaps, you have been aware of, the 2nd International Symposium on Aquaculture and Fisheries Education (ISAFE2) will be held from April 22 to 24, 2014 at Shanghai Ocean University, China. The Programme will convene a mini-symposium titled as 'Fisheries Education and International Linkage' in the afternoon of 23 as a session of the said Symposium. This mini-symposium aims promotion of further international cooperation in fishery-related higher education through introducing to laws and regulations relevant to fishery higher education in countries, reporting how the differences in those institutional systems have been overcome among countries to conduct international cooperation, and sharing the experiences and information on the current and future education projects.

All the universities and faculties related to fisheries in Asia are attempting globalization of the contents and the system of education, in parallel to globalizing fisheries and higher education. I wish to request participation of your institution to the mini-symposium to provide and share the precious information about your experiences.

Sincerely yours,

Tatsuro MATSUOKA (Dean, Faculty of Fisheries, Kagoshima University)
Chairperson, Governing Council of Postgraduate (Master) Programme on Tropical Fisheries
with International Linkage
